"She listens to what you have to say concerning your problems and goes on to fully explain her professional position on such matters. Her responses were strikingly spot on and very helpful in guiding me to a decision."

August 31, 2022

"Horrible experience. She was rude, impatient, talked over me, argumentative, combative, and critical. Just what you want/need in a therapist - someone to blame you and make you feel small. DO NOT recommend."
